

## DRUGS AND ALCOHOL

Drugs and alcohol can seriously impair the safety of your ship and the crew. Because of the nature of our industry, shipping is the target for drug smugglers. Drugs found on board by customs or police authorities will lead to enormous problems for the Master, the crew, and the shipowners.

### HOW YOU CAN HELP

#### **Keep to the policy**

Follow your company's drug and alcohol policy!

#### **Prevent narcotics**

Inform your crew that you intend to do all that is reasonably within your power to prevent drugs from coming on board your ship.

#### **Carrier's Initiative Agreement**

For trade into the United States, implement the requirements of the 'Carrier's Initiative Agreement' programme.

### Put up warnings

Drug Warning Notices are available free of charge from Skuld for use on members' vessels.

Put up Drug Warning Notices

### Co-operate

Co-operate with the authorities. If you have a problem, call Skuld's correspondent.
